## Establishing a monitoring network

Gjorge Ivanov
MES, PPNEA
Balkan Lynx Recovery Program

| Forming | Activities | Reporting | Materials |
| :--- | :--- | :--- | :--- |

| Official | Volunteer |
| :--- | :--- |
| 1. Scientific | -Hunters |
| - Biologists | -Lumberjacks |
| - Vets | -Non timber forest |
| 2. Trained team | products harvesters |
| - Game wardens | -Mountaineers |
| -Foresters | -Students |
| -Border police | -Local people |

- One or more monitoring programs;
- Structure;
- coordinator
- reporter
- field worker
- office worker
- Strategy (statute);
- Trainings;
- Regular meetings.

Monitoring network meeting January 2011, Kicevo.

- Active monitoring
- Cameratraping,
- Boxtraping,
- Radio tracking,
- Transect tracking,
- Kill tracking,
- Identification of:
> Dead animals (causes),
> Kills (who killed, who consumed),
> Killed (shoot, overrun, poisoned)
- Passive monitoring (chance observations)
- Direct observation,
- Tracks,
- Material (scat, hairs etc.)

| Forming | Activities | Reporting | Materials |
| :--- | :--- | :--- | :--- |

- Whom to report?
(hierarchy, decision makers, stakeholders, partners, medias, general public etc)
- What to report?
- How and how? frequent to report?
(interval, standardized forms and templates).

Overview of the contribution of monitoring network.

| Forming | Activities | Reporting | Materials |
| :---: | :--- | :--- | :--- |

Not material but crucial (basic knowledge, proper training, enthusiasm)

- Digital camera;
- Field handbook;

- Folder with various forms
