

ALBANIA:

→ No known depredation losses due to lynx in Albania from 1996-2001. There are no compensation systems applied in the country. Flocks are guarded by sheep guarding dogs.

FYR MACEDONIA:

→ No depredation losses due to lynx in FYR Macedonia from 1996-2001.

Compensation systems:

Population	Description	Who is paying?	Procedures to verify lynx kills
Balkan	Cash payment; amount depending on the value of the animal.	Ministry of Agriculture	Examination by national park authorities or forestry police.

Prevention: → There are no prevention methods applied in the country.

SERBIA AND MONTENEGRO:

→ There is not enough data as such events are very rare. Attacks on livestock are almost not known. No compensation systems and prevention methods are applied in the country. (Poaching is a regular incident, and is not connected to the very rare attacks on livestock).
