DONATION TO THE CAT SPECIALIST GROUP

The IUCN/SSC Cat Specialist Group (Cat SG) currently includes 202 of the world's leading wildlife managers, scientists and conservation experts on wild living cat species in 57 countries throughout the world:

- Within the World Conservation Union (IUCN), the Cat SG is a member of the Species Survival Commission (SSC) and as such provides species assessments for the IUCN Red List™ of Threatened Species.
- The Cat SG advises governments that are party to the Convention on International Trade in Endangered Species of Wild Fauna and Flora (CITES).
- Throughout the world, the Cat SG provides education and training programs to support much needed expansion of expert capacities for research, monitoring and conservation of wild living cat species.
- By providing and managing the Digital Cat Library and various online compendia, the Cat SG offers a central hub of specialized information for all stakeholders involved. Through its official newsletter *Cat News*, the Cat SG periodically publishes up-to-date information around topics of interest.

Through its engagement, the Cat SG ensures availability of a worldwide and up-to-date scientific base of information and contributes to the long term conservation of wild cat species. As a Friend of the Cat Group you receive *Cat news*, the biannual newsletter of the Cat SG.
