

Cheetah and Wild Dog Watch Campaign

Cheetahs are the fastest creatures on land.
They can reach speed of 64mph.

They are vulnerable to disturbance from
tourism because they hunt during
the day and are often shy.

Tanzania holds a globally important population
of cheetahs.

*Send us your photos
and tell us where you saw
them !*

Wild dogs are extremely social and
live in packs ranging from 2-30 dogs.

Tanzania is home to the world's
largest population of wild dogs and
holds one third of the global
population.
