Questionnaire on the status of the Pallas’s cat (*Otocolobus manul*)

**Introduction:** This Questionnaire aims to compile information on the conservation status of the Pallas’s cat per range country. The information provided will be included in a new assessment of the Pallas’s cat (see project description) and will be compiled by regions (Central Asia and adjacent areas, south-west Asia, and the Himalayas and China). The categories used in this Questionnaire are therefore following the IUCN Red List assessment procedures. The goal of the exercise is to compile and review the presently available information and to identify important gaps in our knowledge, in order to raise awareness for the Pallas’s cat and advance its research and conservation.

**Instructions:**
- Please provide the most recent information and figures
- Please state for all answers the corresponding reference(s) and provide a full reference list at the end
- Please write “unknown” for questions which cannot be answered
- The standardised time frame to describe changes is 10 years (~3 generations by IUCN standards)

Country/State/Region (data below relates to):
Compiler/s:
Contact details:
Date:

1. **Distribution and Habitat**

   1.1 Please attach a map of the current Pallas’s cat distribution range in the country/region (in a word file or as jpg) and provide, if possible, the data of the map in the attached spread sheet. Alternatively, you can provide us the data and we produce the map for you. Please categorise point distribution data according to the SCALP criteria:

   - **C1** “hard facts”, verified and unchallenged observations such as pictures, captured or dead animals or genetic proofs
   - **C2** Observations controlled and confirmed by an expert or trained person such as verified reports, livestock kills, tracks or scats
   - **C3** Unconfirmed observations, which cannot be verified such as sight observations or not verified kills, tracks or scats

   If you also or only have GIS data such as polygon layers with distribution information, please, if possible, provide us these layers and also include this information in the spread sheet. Please indicate for each polygon in which ones the Pallas’s cat is

   - **Extant** The species is known or thought very likely to occur presently in the area, usually encompassing current or recent localities where suitable habitat remains.
   - **Possibly extant** The species may possibly occur, based on the distribution of suitable habitat, but where there are no known records. This range often extends beyond areas where the species is extant.
   - **Possibly extinct** The species was formerly known or thought very likely to occur in the area, but it is most likely now extirpated from the area because habitat loss/other threats are thought likely to have extirpated the species and/or owing to a lack of records in the last 30 years.
   - **Extinct** The species was formerly known or thought very likely to occur in the area, but there have been no records in the last 30 years and it is almost certain that the species no longer occurs, and/or habitat loss/other threats have almost certainly extirpated the species.
   - **Presence uncertain** The species was formerly known or thought very likely to occur in the area but it is no longer known whether it still occurs (usually because there have been no recent surveys).

   1.2 What is the trend of the distribution range (change in past 10 years) in your country/region?

   Total range (development of total area occupied):

   - Strong decrease
   - Decrease
   - Stable
   - Increase
   - Strong increase
   - Unknown
1.2.1 What are the major reasons for change in the distribution range of the Pallas’s cat?

1.3 Please give a short description of the Pallas’s cat range and any other important information in regard of its distribution in your country/region.

1.3.1 State the upper and lower elevation limits of its occurrence:

Upper elevation limit (meters above sea level) 
Lower elevation limit (meters above sea level) 

2 Habitat and Ecology

2.1 Please give a short description in which habitats the Pallas’s cat is found and which are important habitat requirements for the species.

2.2 Please provide any home range estimate for the Pallas’s cat in your country/region.

<table>
<thead>
<tr>
<th>Home range size (km²)</th>
<th>Sex of studied animals (m = male, f = female)</th>
<th>Nbr. of animals studied</th>
<th>Region name</th>
<th>Study area size (km²)</th>
<th>Method used</th>
<th>Year</th>
<th>Reference</th>
</tr>
</thead>
</table>

2.2.1 Please provide information on the percentage of overlap between home ranges of Pallas’s cats.

2.3 Please indicate the main activity period of the Pallas’s cat.

Nocturnal 
Crepuscular 
Diurnal 
Unknown 

2.3.1 Please provide a short description of the activity patterns of Pallas’s cats in your country/region.

2.4 What are the main prey species of the Pallas’s cat in your country/region?

2.5 Please provide any important information on the behaviour of the Pallas’s cat.
3 Population size and abundance information

3.1 Is a systematic monitoring scheme in place?
Yes
No
Unknown

3.1.1 If yes, please provide a short description of the monitoring (methods, where, when, how often etc.).

Reference

If you use a standardised protocol please attach a copy of it.

3.2 What is the Pallas’s cat’s current population trend (change of abundance in your country/region in past 10 years)?
Strong decrease
Decrease
Stable
Increase
Strong increase
Unknown

Reference

3.3 Please provide concrete Pallas’s cat population size estimates for your country/region, if available. Provide the most recent figures with year of estimation and reference. If both, official estimations and diverging scientific/expert estimates are available for a region or the country, please provide both.

<table>
<thead>
<tr>
<th>Population size</th>
<th>Mature individuals only? (Yes/No)</th>
<th>Region name and size (km²)</th>
<th>Reference area (km²)</th>
<th>Method used</th>
<th>Year</th>
<th>Reference</th>
</tr>
</thead>
</table>

Comments

3.3.1 Who does the population size estimations?
Governmental agencies
Academic/research centre
NGOs
Independent individuals
Other (please specify)

3.4 Is the Pallas’s cat population in your country/region fragmented?
Yes
No
Unknown

3.5 Are there any subpopulations of the Pallas’s cat identified?
Yes
No
Unknown
3.5.1 If yes, how many are there?

3.6 Are there any numbers or any information on the mortality of Pallas’s cats in your country/region and is there any information on the types of mortality causes (if so please list them here)?

3.7 Please state the Pallas’s cat density estimations if available.

<table>
<thead>
<tr>
<th>Density (Pallas’s cats per 100 km²)</th>
<th>Region/area name</th>
<th>Region/Area size (km²)</th>
<th>Pop. Size</th>
<th>Method used</th>
<th>Year/Date</th>
<th>Reference</th>

4 Legal status, utilisation and management

4.1 Is there a formal management plan or a conservation (action) plan for Pallas’s cats in your country/region?

Yes
No
Unknown

Reference

If yes, please provide a pdf copy of it.

Comments

4.2 Which is the formal ministry/department responsible for the management/conservation of the Pallas’s cat if available?

Reference

4.3 If available, how is the management organised? Are there different management/conservation systems in different regions/areas?

Reference

4.4 What is the legal status of the Pallas’s cat in your country/region and in different regions/provinces?

Reference

4.5 What is the Red List status of the Pallas’s cat in your country/region?
4.6 Is the Pallas’s cat subject to harvest, hunting or culling?
Yes [ ]
No [ ]
Unknown [ ]
Reference [ ]

4.6.1 If yes, how many Pallas’s cats are harvested/hunted/culled per year?

4.6.2 If yes, what is the trend of the harvest/hunting/culling?
Strong decrease [ ]
Decrease [ ]
Stable [ ]
Increase [ ]
Strong increase [ ]
Unknown [ ]
Reference [ ]

4.6.3 If yes, what are the reasons for its harvest/hunting?
Comments [ ]

4.7 Is the Pallas’s cat or parts of the cat (e.g. skins) subject to trade?
Yes [ ]
No [ ]
Unknown [ ]
Reference [ ]

4.7.1 If yes, how many Pallas’s cats or parts are traded per year?

<table>
<thead>
<tr>
<th>Pallas’s cats</th>
<th>Total numbers</th>
<th>Purpose</th>

## Threats

### 5.1 Please list threats to the Pallas’s cat in your country/region. Please rate the threats according to their importance in regard to negatively affecting the survival of the Pallas’s cat (1 = very important, 2 = important 3 = not important, ? = unknown), indicate the timing of the threat (1 = past, unlikely to return 2 = past, likely to return, 3 = ongoing/present, 4 = future) and the range it affects (1 = local, 2 = regional, 3 = national, 4 = range wide).

<table>
<thead>
<tr>

</tbody>
</table>

5.3 Please provide a short comment on how threats are affecting the Pallas's cats in your country/region by providing more detail on their possible origin, possible future development, and what their possible effects on the species are, were in the past 10 years, and will be in the future 10 years.

6 Conservation Measures

6.1 If a conservation action plan for the Pallas's cat exists in your country/region, who is responsible for its development and implementation and how often is it updated?

Reference

Comments

If yes please attach a pdf version of the conservation action plan.

6.2 Which are the suggested or implemented priority conservation actions/measures to conserve the Pallas's cat?

1. 
2. 
3. 
4. 

6.3 Specific research or conservation projects/programmes on Pallas's cats in the past ~10 years.

<table>
<thead>
<tr>
<th>Project and short description</th>
<th>Duration</th>
<th>Comments</th>
</tr>
</thead>
</table>

6.4 In which protected areas do Pallas's cats occur in your country/region?

<table>
<thead>
<tr>
<th>PA name</th>
<th>Area size (km²)</th>
<th>IUCN category</th>
<th>Nbr. of Pallas’s cats</th>
<th>Reference</th>
</tr>
</thead>
</table>

Comments

6.5 Please provide additional important information on the conservation of the Pallas's cat in your country/region.

7 Any other comments?
