

Iberian Lynx Project Record¹

¹ Including projects on prey base and habitat which do not focus specifically on *Lynx pardinus* but do benefit it.

Basic Project Information:

Project Name: Life-Lince partnerships. E2: Education Campaign for responsible hunting and prohibit methods of predator's control.

Abbreviation:

Project Institution: APROCA- Andalucía

Project Leader: Marcos Feria Carrasco

Project Website: www.aprocandalucia.org

Start Date (year/month): 2003/

End Date (year/month): 2006/

Expected Duration: 4 years

Current Status: proposed active closed unknown

Notes: Consult Consejería de Medio Ambiente for further information about Life-Lynx project

Focus Level Countries:

Spain Portugal

Project Region: Andalucía

Focus Level Taxa:

	Key focus	substantial	significant	small	unassessed
<i>L. pardinus</i> :	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<i>O. cuniculus</i> :	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Other species:	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Habitat:	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

in situ / ex situ

Project Goals and Methods:

Abstract: APROCA is an Association of Landowners of Hunting Areas. The relationship between Iberian Lynx and Hunting areas owners, and secondly hunters, should be taken into consideration in a LIFE Project to recover the specie.

Project Goals: - Benefit the relationship between the Autonomic administration in charge of the Life (Consejería de Medio Ambiente de la Junta de Andalucía) and the private properties in order to get agreements to improve habitats for the Iberian Lynx and the rest of present species.

- Improve the concience in the hunting sector about the necesity of recover the lynx in Andalucía.

- Provide information about the LIFE Projects and ways to contribute in this sector.

Project Methods: - Direct assesment to our patnerships in terms of habitat improvement and agreements with the administration

- Speeches about the situation, problems, etc. of the Iberyan Lynx in Andalucía

- Direct information during hunting activities in the areas where Lynxs are supposed to live at present.

- Direct info in "Hunter´s Course", the diploma needed to get the legal permission to hunt in Andalucía.

- Articles in magazines (Campo actual, Trofeo etc) and in the Association website.

Additional Information: Aim to share experiences with others.

Activities:

Focus Level ► Activity ▼	Key Focus	substant ial	significant	small	unasse ssed
<u>Habitat-related implementation:</u>					
<input checked="" type="checkbox"/> Protected Area management support	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<input type="checkbox"/> Land-use changes	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<input type="checkbox"/> Habitat or prey base restoration	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<input type="checkbox"/> Transboundary initiatives	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

People-related: Law enforcement:

Law enforcement

People-related: Opinion-formers:

Networking and information sharing

Planning and policy

Advocacy

People-related: Living near the species:

Personal involvement

Economic incentives/alternative resources

Resolving human/carnivore conflict

People-related: General public:

Education

Awareness and PR

Taxon-related implementation:

Gene pool

Re-introduction or supplementation

Translocation/rehabilitation

Disease control

Species utilization/management

Ecological research:

Cat population surveys or monitoring

Habitat/prey assessment or monitoring

Spatial/temporal patterns

Predator/prey relationship

Population dynamics

Behavioural ecology

Human activities research:

Human attitudes research

Taxon-related research:

Veterinary research

Evolutionary research

Genetics research

Supplement to Research activities: Research techniques:

Camera-traps

GIS-mapping/modelling

Population modelling

Radio-telemetry

Direct observation

Molecular analysis

Questionnaires/interviews

Tracking/sign surveys

Agency Involvement (Funding):

Agency	Year	Grantee	Amount	Notes
Consejería de Medio Ambiente	2003			
	2004			
	2005			
	2006
