

Bahadur K.C. R. et al. 2025. Using camera traps to identify and help manage problematic tigers in Nepal. Cat News 82, 16-19. Supporting Online Material

Fig. 1A. Case 1.1: Tiger attacked Elephant Staff on 2019/11/05

Fig. 1B. Case 1.2: Tiger attacked community woman on 2021/03/16

SOM F1. The photographs from three conflict cases (A, B, C) revealed identical stripe patterns, leading us to conclude that the same tiger PT01 was responsible for all three incidents.

Fig. 2A. Case 2.1: Male tiger (ID: BNP M01 Danda Gau Bhale) captured on 12/17/2019 (left side), and 12/19/2019 (right side)

Fig. 2B. Case 2.2: Tiger captured on 05/09/2020

Fig. 2C. Case 2.3: Tiger captured on 11/02/2020

Fig. 2D. Case 2.4: Tiger captured on 03/05/2021

SOM F2. The photographs from each monitoring event (A, B, C, D) where the problematic tiger (BNP_M01_Danda Gau Bhale (PT02)) has been captured.
